Young Eagles Aviation Day is part of the EAA Young Eagles Program. Launched in 1992, the program has dedicated over 30 years to giving youth ages 8-17 their first free ride in an airplane. It is the only program of its kind, with the sole mission to introduce and inspire kids in the world of aviation.

Today, more than 2.3 million young people worldwide have enjoyed a free introductory flight through this program and Chapter 55 pilots have flown nearly 5,700 area youngsters. These flights are made possible solely through the generosity of EAA member volunteers.

Flights will be on a first come, first served basis; approximately 20 minutes in length.
A parent or guardian **MUST** be present to register youngsters.
Advance reservations for large groups are encouraged.
